## pairing tips

*What grows together goes together: Pair wine with cuisine from a similar region • Tannins in wine cut fat in richer food, especially meats • Earthier or more minerally foods go well with earthier, more minerally wines • Sparkling wines' bubbles and acidity cut nicely through fried foods • Lighter, fresher wines are great with lighter, fresher foods • Fuller, richer wines are ideal with fuller, richer foods • Spicy food goes better with lower alcohol wines, especially those with a touch of sweetness • Match the intensity of your food with the intensity of your wine • Trust your palate, drink what you like and enjoy it.*
